➤ INSTALLATION

▪ **How do I install a BlackBerry theme using the Desktop Manager Software?**

1. Download the theme ZIP file to a directory on your PC and extract the files.
2. Connect your BlackBerry to your computer using a mini USB cable.
3. Start the Desktop Manager Windows application that came with your BlackBerry software CD.
4. In Desktop Manager, double click on the "Application Loader" icon.
5. On the screen listing the applications already installed on your BlackBerry, click on the Add button.
6. Navigate to the directory where you unzipped the installation package ZIP file and select the file ending in .alx.
7. Click next.
8. Restart your BlackBerry when prompted.

▪ **How do I install a BlackBerry theme Over-The-Air (OTA)?**

Please refer to instructions provided in the purchase confirmation download page for Over-The-Air (OTA) installation.

▪ **How do I activate a theme?**

From the BlackBerry Home Screen go to Options – Theme and select the theme you just installed from the list.

We hope you enjoy using your theme from BBSmart. If you like it, please be sure to tell your friends!

Thank you for your support 😊
